a message from mitch

Dear Friends,

I hope this message finds you in good health and high spirits. As the President of Greenways Foundation, I am thrilled to have this opportunity to share with you the impactful work we have been doing for the preservation, development, and management of greenways throughout the State of Indiana.

At their core, our supporters believe in creating a sustainable environment that nurtures our communities and our natural surroundings. One of our key initiatives is awarding funds to organizations that develop, improve, and maintain trails in Indiana. Over the years, we have invested considerable resources in our inspiring partners, who not only enhance the beauty of our state but also provide stunning recreational and educational facilities for everyone to enjoy.

The funds we distribute are utilized to create diverse recreational facilities that cater to different interests and abilities. Whether it's hiking, cycling, horseback riding, or paddling, our goal is to connect people with their community while promoting their physical and emotional well-being.

None of this would be possible without your continued support. Your contributions, whether they be financial or through active participation, are what fuel our endeavors and strengthen our ability to make a difference in the lives of countless individuals across Indiana.

Together, let us continue our journey towards creating thriving greenways throughout the state.
Thank you for your unwavering support.

Warm regards,

Mitch Barloga
President, Greenways Foundation

Bequests: You can designate a specific sum, a percentage of your estate, or even assets like real estate, stocks, or personal property to Greenways Foundation in your will or living trust.

Charitable Gift Annuities: Create a charitable gift annuity with Greenways Foundation, and you can receive a fixed income stream for life while also making a significant gift to support trails. It's a win-win solution that provides financial security and a legacy of outdoor enjoyment.
